To better protect and serve our community, we are updating the database used by Pantego Police, Fire, EMS, and dispatchers during emergencies. Though it is **not required** that you provide any of the information requested below, we do strongly recommend that you supply name(s) and phone number(s), at a minimum. **You can provide this information by visiting www.townofpantego.com/police** or by mailing or delivering this completed form to Pantego Police Department, ATTN: Communications Supervisor, 2600 Miller Lane, Pantego, TX 76013. If you have any questions, please call dispatch at 817-274-2511 or stop by our offices.

STREET ADDRESS →
Include apartment/suite number.

NAME OF BUSINESS	

CONTACT INFO
Use the boxes to prioritize these contacts. For example, if the manager should be called first in an emergency, label them as 1. If they were unreachable, label the second option as 2 (etc.). Please understand that including a number here does not mean that it will be called. Once our department notifies someone listed here of the situation, that party is typically expected to take on the responsibility of notifying all others.
TIP: Store dispatch's number as a contact in these phones so you know if we're calling: 817-274-2511.

CodeRED is a reverse 9-1-1 system that helps us keep you informed during emergencies or hazardous situations. Sometimes it's used for general information (e.g., mosquito spraying or event reminders). However, you can choose which types of updates to receive. If you'd prefer to set up and manage your own account, click on the scrolling message at the top of our website.

☐ **On Premises Phone:**
Is this phone capable of receiving texts?   ☐ Yes   ☐ Yes, but I prefer calls if possible   ☐ No

Second Door Code: ☐ No   ☐ Yes; Code: _____

Any other information?
Let us know anything that might assist first responders. Examples:
- Is there anyone not listed who would have reason to enter this location outside of business hours (e.g., for cleaning or maintenance)?
- Are there guard dogs or potentially hazardous items (e.g., electric fence, large quantities of ammunition, combustibles, or explosives)?
- If you have solar panels installed, where is the control panel?

☐ *Check here if additional information is continued on the reverse →*
